4	Keith Powers	Yes	"As Chair of the Criminal Justice Committee, I have had the opportunity to be a part of consequential and significant movement to not only improve the treatment of incarcerated individuals—but also to truly transform the criminal justice system. To achieve that goal, we must close Rikers. Today, we commit to keep working toward a future that ensures fairness, upholds dignity, and advances justice."
5	Ben Kallos	Yes	"New York City can and will do better than Rikers Island. For far too long we've allowed the unspeakable to go on at this jail. As a City, we must be united and transparent in the need to close Rikers immediately so we can begin to treat incarcerated New Yorkers and their families more humanely."

13	Mark Gjonaj	Yes	Council Member Gjonaj voted no on accompanying Resolution 1091-2019.
14	Fernando Cabrera	No	"My vote was based on the following: 1) the City will incur \$11 billion in costs that will put us, for the first time in history, in a position of debt exceeding \$100 billion. Every New Yorker, especially low income people and working people, will be affected; 2) over the years, the numbers of inmates held at Rikers Island has been decreasing, which directly contradicts the concept of replacing one jail with four; 3) the plan doesn't respond to either the ongoing ills of our broken criminal justice system, or the safety of correctional officers who are regularly injured in the line of duty."
15	Ritchie Torres	Yes	<a href="#">Click here for full statement.</a>
16	Vanessa Gibson	Yes	
17	Rafael Salamanca Jr.	Yes	Council Member Salamanca Jr. voted no against land use resolutions involving the creation of the Bronx jail because its location was too far from the Bronx County Court and the City ignored the community's concerns with this issue.
18	Ruben Diaz, Sr.	No	Council Member Diaz, Sr. stated that he does not want jails in the community and believes the money would be better spend on other City investments such as NYCHA and schools.

QUEENS			
Council District	Council Member Name	Vote	Notes
19	Paul Vallone	Yes	Council Member Vallone voted no on accompanying Resolution 1091-2019.
20	Peter Koo	Yes	
21	Francisco Moya	Yes	"The decision to shutter Rikers Island is not one I take lightly but neither is it one I find difficult to make. It's time to close Rikers for good. Its foundation is rotten from the injustices it housed and it stands as a monument to systemic violence, inhumane conditions and neglect. Though not perfect, the plan to create smaller, safer jails to detain people within their communities is the best option available. I am mindful, however, that the complex is merely a symbol of New York's criminal justice failures. This plan goes beyond symbolic victories and invests more than \$71 million into alternatives to incarceration and community-based programs. We cannot squander this historic opportunity for sweeping change."
22	Costa Constantinides	Yes	<a href="#">Per CM's request, refer to this op-ed for his statement.</a>
23	Barry Grodenchik	Yes	
24	Rory Lancman	Yes	"This is a once in a generation opportunity to end the terror of Rikers and drastically reduce incarceration. We either close Rikers Island now through this plan, or our grandchildren will be talking about the evils of Rikers Island and wondering what to do about it."
25	Daniel Dromm	Yes

27	I. Daneek Miller	Yes	
28	Adrienne Adams	Yes

"I want to emphasize that I would not have supported this proposal if I believed that it would have a negative impact on the community that I love. I've represented this community for over two decades, and have lived in it for over half a century, and I could never in conscious harm my neighbors."
